Technical Product Manager

✉ darshanr2k1@gmail.com ☎ +91 8660457613 📍 Bangalore, India (Remote) 🔗 Portfolio 🔗 [linkedin.com/in/darshan-acharya](https://www.linkedin.com/in/darshan-acharya)

PROFILE

Technical Product Manager with 3+ years of experience delivering 30+ custom software projects across distributed remote teams. Builds and deploys AI-powered products using React, Supabase, and LLM APIs. Bridges the gap between product thinking and engineering through hands-on prototyping and system-level reasoning.

PROFESSIONAL EXPERIENCE

Project Manager

04/2025 – Present

OneIT Pty Ltd

Perth, Australia (Remote from Bangalore)

- Delivered 30+ custom software projects with 95% on-time delivery rate across diverse industries
- Led and mentored distributed remote team of 10+, reducing delivery delays by 20%
- Drove roadmap execution across concurrent software projects by aligning scope, sprint priorities, and stakeholder expectations
- Identified workflow inefficiencies through stakeholder feedback and translated findings into prioritized product improvements
- Controlled project budgets with cost variance under 5%

Associate Project Manager

02/2023 – 03/2025

- Supported product planning and Agile delivery across multiple client-facing software projects
- Gathered business requirements and translated stakeholder needs into prioritized development tasks across Agile delivery cycles
- Coordinated with engineering and design teams to support Agile delivery across multiple client projects
- Monitored recurring client feedback and operational issues to identify usability improvement opportunities
- Improved execution clarity across distributed teams through structured sprint planning and delivery coordination

TECHNICAL PROJECTS

Task Board

AI-Powered Kanban Platform

- Built full-stack AI assisted Kanban with drag-and-drop, per-card detail modals, subtask tracking, and overdue filtering
- Integrated Groq AI (Llama 3.3) to power AI-assisted prioritization workflows to analyze open tasks and recommend execution order based on urgency and deadlines
- Implemented email authentication with per-user data isolation via Supabase Row Level Security
- Stack: React · Supabase (PostgreSQL + Auth) · Groq AI · Tailwind · GitHub Pages

Pulse

Feedback Intelligence Tool

- Built feedback intelligence platform to support user feedback analysis, prioritization, and workflow tracking
- Designed multi-criteria filtering workflows to improve feedback discovery and prioritization across large datasets
- Integrated AI analysis via Groq to identify top pain points, sentiment patterns, and prioritization opportunities
- Stack: React · Supabase (PostgreSQL + Auth) · Groq AI · Tailwind · GitHub Pages

SKILLS

Product: Feature scoping, roadmapping, backlog management, user story writing, sprint planning, stakeholder management, UX thinking, tradeoff analysis

Technical: React, Supabase, PostgreSQL, REST APIs, authentication systems, AI/LLM integration (Groq, OpenAI-compatible), localStorage, GitHub Pages deployment

Delivery: Agile, Scrum, Waterfall, SDLC, remote team coordination, budget tracking, risk management

Tools: JIRA, Trello, Slack, Mattermost, Zoom, Microsoft Excel, Google Sheets, Mixpanel

EDUCATION

BSc Biotechnology

CGPA: 7.9 - Bangalore

MS Ramaiah College

CERTIFICATES

- Google Project Management
- Accenture Project Manager Virtual Internship
